

Welcome to
sophistication,
design and
security.

TRADA

OUR STORY

Founded in 2006, Trada is a 100% national company, its initial focus was the manufacture of security doors with a steel structure, but it soon identified the opportunity to develop and commercialize other products, so it also started producing wooden doors and skirting boards. Since then, the company has served several construction companies and private clients, offering modern products, services and projects with a high standard of finishing.

ABOUT US

The company has more than 100.000 sq feet of built area, where state-of-the-art equipment is housed, used from wood preparation to product shipping.

INNOVATIVE DESIGN TRADA

Our innovative design is based on the combination of shapes, details and colors that provide unique and impactful environments. More than design and functionality, we deliver excellent quality components that are essential in a premium product.

**The home of your dreams must be special in every detail.
And we know very well what that means.**
